

Emergency Repair Kit

Nothing is worse than having a technician arrive at your business and after a brief look he tells you we must order parts. The repair is delayed, additional expenses of return service, and the lost use of the machine gets expensive.

I have created a list of the most common parts and suggested things that may need to be replaced on a machine. I call it an Emergency Repair Kit. I suggest you order one for each head. These are suggested parts so you may need to add to the list or you may not need all parts listed.

Emergency Repair Kit						
Machine Type						
Page Num	Ref#	Parts Num	Parts Name	Cost	QTY	Total
			Reciprocator		1	
			Rotary Hook		1	
			Needle Clamps		3	
			Presser Foot		3	
			Presser Foot Rings		15	
			Rubber cushion		15	
			Needles		20	
			Picker		1	
			Thread Hook		1	
			Velcro		2	
			Take-up levers		3	
			Bobbin case		1	

If you would like to have AJST order the parts for you please call or email Tracee .
